

Amendments to the Claims:

The listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A method for surveying an online user comprising the steps of:
 - (1) presenting ~~a first item~~ one or more consumer products to the user over a distributed network;
 - (2) presenting a questionnaire to the user over the distributed network if the user selects ~~the first item~~ at least one of the consumer products presented;
 - (3) accepting and storing the user's first response to the questionnaire;
 - (4) repeating, at least one time, steps 1-2 and accepting and storing the user's subsequent response(s) to the questionnaire; and
 - (5) performing online sustainability testing by comparing the user's first response to the user's subsequent response(s).
2. (Original) The method of claim 1, wherein the step of performing online sustainability testing further comprises correcting or correction for a skewed result.
3. (Currently Amended) The method of claim 1, ~~wherein the step of presenting a first item further comprises~~ comprising presenting a first consumer product and a second item consumer product and wherein the questionnaire asks about the first and second ~~items~~ consumer products.
4. (Original) The method of claim 3, wherein the step of presenting a questionnaire to the user only occurs if the user selects both the first and second items.
5. (Original) The method of claim 1 wherein the distributed network is the Internet.

6. (Original) The method of claim 1 wherein the step of presenting a first item to the user is done by a first entity and the step of performing online sustainability testing is done by a second entity.

7. (Original) The method of claim 6, wherein the first entity is an online vendor and the second entity is a producer of the item.

8. (Original) The method of claim 7, wherein the producer shares results from the online sustainability testing with the online vendor.

9. (Currently Amended) The method of claim 7, wherein the producer ~~gives~~ provides the item free of charge to the online vendor.

10. (Original) The method of claim 7, wherein the producer offers the item exclusively to the online vendor during the survey of the online consumer.

11. (Original) The method of claim 1, wherein the item is a snack food product.

12. (Original) The method of claim 1, further comprising the steps of:
performing offline sustainability testing; and
comparing the results of the online and offline sustainability testings.

13. (Currently Amended) The method of claim 1, wherein the questionnaire is a CGI script, JAVA applet, or PERL ~~applet~~ script.

14. (Original) The method of claim 1, wherein the first response to the questionnaire is transmitted over the distributed network.

15. (Original) The method of claim 14, wherein the first response to the questionnaire is

transmitted in XML.

16. (Original) The method of claim 1, further comprising the step of assigning an identifying code to the user, wherein the first response and the subsequent response(s) are associated using the identifying code.

17. (Original) The method of claim 16, wherein the identifying code is a cookie.
